

LSEG

Taipei opportunities

LSEG (London Stock Exchange Group) is more than a diversified global financial markets infrastructure and data business. We are dedicated, open-access partners with a commitment to excellence in delivering the services our customers expect from us. With extensive experience, deep knowledge and worldwide presence across financial markets, we enable businesses and economies around the world to fund innovation, manage risk and create jobs. It's how we've contributed to supporting the financial stability and growth of communities and economies globally for more than 300 years.

Through a comprehensive suite of trusted financial market infrastructure services – and our open-access model – we provide the flexibility, stability and trust that enable our customers to pursue their ambitions with confidence and clarity.

Our Group's growing presence in Taipei sits primarily within Data & Analytics, which includes global index provider FTSE Russell. In recent years and through the integration of acquisitions such as The Yield Book and Citi Fixed Income Indexes, we have grown our data

solution capabilities. Today, we offer top-down economic and demographic information and detailed equity, debt and sustainability data analysis to corporations, financial institutions, business academics and reference libraries around the world. FTSE Russell provides a broad range of solutions, including advanced data collection, cloud-based applications, desktop analytics and print products. Following the successful integration of the Citi fixed income indexes and The Yield Book analytics platform, FTSE Russell is the leading global index provider with approximately \$16 trillion in assets under management tracking our benchmarks.

Our recruitment process

All our graduate programmes share a consistent recruitment process. If you require any reasonable adjustments at any stage, please contact our team.

Stage 1 Apply online, submitting your CV and a short motivational statement

Stage 2 Complete our online reasoning test

Stage 3 Take part in a telephone interview with one of our team

Stage 4 Attend one of our virtual assessment centres

FTSE Russell was recently recognised as Index Provider of the Year at both the Pensions Age Awards 2020 and the Insights & Mandate Professional Investment Awards 2020. As a graduate in our Taipei office, you will have the opportunity to work across our business functions in data analytics, data collection, product and research, technology, client servicing and index management.

Our graduate programme

Our graduate programme is designed to provide the ideal springboard for a rewarding and challenging career in global financial markets. Our programme begins with an intensive induction providing you with the tools you'll need to hit the ground running from day one. This is followed by a series of continuing development programmes that ensure a steep learning curve is maintained throughout, as we support you in developing technical and professional skills. As a graduate, you will join one of our business areas and undertake two six-month rotations in different areas of the Group. This not only means more variety, but also the chance to gain a clear understanding of LSEG and to broaden your commercial awareness and skill-set.

The graduate programme is open to highly motivated students in their final year of study from all degree disciplines who have an interest in finance and financial data.
