

# UTS Business School

## Master of Business Administration

The UTS MBA is a two-year on campus full-time degree with two intakes per year (Autumn and Spring sessions). It gives you time and space to build a really solid and broad foundation of general business skills, before capping that with your preferred specialisations.

This experiential program is designed to extend strategic thinking, knowledge and capabilities for young professionals seeking a career change or advancing into managerial roles. Our practice-based program is also about flexibility, where you can tailor an MBA to suit your needs.

The *UTS MBA Career Elevate* program provides tailored career support to realise your full career potential, and experience solving real industry problems while expanding your network. You will have the opportunity to complete an internship and engage in social justice-focused volunteering and leadership during the course.

### Why UTS Business?

Tomorrow's business challenges are big, complex, undefined. Learn to think differently to respond to the changing business landscape and to disruption that is shaping the workforce of the future.

All our courses are aligned with industry needs. What you learn will prepare you for your future career. How do we know what employers want? We ask them. We have built extensive industry connections across a range of professional sectors.

### UTS Careers

- Programs and events to suit your needs
- Business internships to explore your future career: gain hands-on experience, strengthen your skills and enhance your learning
- Every student has the opportunity to undertake an internship
- Our dedicated team will provide you with career preparation training and support

**Vani Girdhar**  
 Master of Business Administration alumna  
 Investment Analyst @ DragonflyEnviro Capital

“The UTS MBA was instrumental in my transition from fintech to venture capital, with a focus on climate tech.

UTS’ stellar reputation and comprehensive curriculum provided the perfect platform to achieve this career shift.

Key strengths of the program were its tailored approach, its commitment to climate change and sustainability allowing me to broaden my professional network and gain valuable insights from industry experts.”
